PROUD TO  
ACHIEVE  
CONSISTENT  
RESULTS  
TOGETHER.

DEDICATED  
TO DELIVER

**Concept**

ANAEROBIC & MICROAEROPHILIC  
WORKSTATIONS

## HIGH PERFORMANCE AND RELIABILITY, TO DELIVER EVERYDAY

Since 1993 Baker Ruskinn have been working with Microbiologists all around the world, to fully support their needs, delivering high performing anaerobic and microaerophilic solutions.

We at Baker Ruskinn understand the growing demands being made on today's Microbiologists and their laboratories. We know how important it is to have high performing equipment that you and your hardworking teams can rely on. That's why we are dedicated to deliver products that serve the people who process thousands of important samples every day.

## EFFICIENCY & RELIABILITY

Save time in getting patient samples efficiently into correct anaerobic conditions, with our fast interlock purge cycle times and Single Plate Entry System (SPES™). Go further with our remote monitoring and control system, allows complete control wherever you are.

## EASE OF USE

Access your workstation quickly & easily with our Ezee Sleeve™ direct-hand access port system. It's also so easy to clean with the removable pop-off front cover (Pop-Off™).

## ACCURACY & CONTROL

Check your environmental conditions at a glance, with our clear digital on-screen colour-coded display, set to your specific parameters. With an optical sensor & HEPA filtration as standard, you can truly rely on the accuracy of set conditions.

## CAPACITY & FLEXIBILITY

Process more plates in one controlled environment with our high capacity workstations (up to 500 plates). Our modular design gives ultimate flexibility to expand and upgrade your workstation to offer a dual chamber controlled environment.

# ALL NEW LOOK, EASY TO USE AND MAINTAIN

**NEW**  
See-through  
interlock door

**NEW**  
48 month  
warranty\*\*

**NEW**  
Optional  
workstation  
interior waste  
port accessibility

**NEW**  
Improved  
basic humidity

**NEW**  
Optional remote  
monitoring allows  
complete control  
no matter where  
you are\*

**NEW**  
Modular,  
expandable and  
upgradeable

**NEW**  
Optical O<sub>2</sub>  
sensor

**1**

**Innovative Design Feature:**  
Optional removable Pop-Off™  
front cover for easy set-up and  
cleaning

**2**

**Environmental Control**  
Real-time measurement and  
display of temperature and  
humidity levels

**3**

**Internal HEPA filtration**  
as standard

## ALL NEW FEATURES

**4**

**Single Plate Entry System**  
(SPES™) for instant insertion  
or removal of plates

**5**

**Direct-hand access using**  
Ezee Sleeve™ port systems

**6**

**Fast interlock**  
purge cycle time

The Concept range has been rigorously tested to maximize productivity of systemized anaerobic or microaerophilic incubation; bringing together a host of features that you can trust, bringing immediate benefits to your busy laboratory. The optional removable pop-off front cover (Pop-Off™) makes set-up and cleaning so easy; the modular-design provides users with true flexibility to expand and upgrade work spaces. It is by getting the small things right that sets this range apart. We know just how crucial it is for your equipment to support your teams to deliver effectively and efficiently every day.

\*Only available on Concept 400-M

\*\*Only valid if annual service schedule implemented

# REFINED TO SUIT YOUR SPECIFIC NEEDS

Scan the QR code  
to see more about  
the Concept range

There are four models in the Concept range, each one carefully refined to suit your specific needs, with advanced ergonomic design providing excellent hand access and rapid plate loading. Ideal for varying capacity workloads and providing the best primary isolation rates for your anaerobic and microaerophilic cultures.

**Concept 400**  
Perfect for mid-range  
anaerobic workloads

210.3L working anaerobic volume

## EXTERNAL DIMENSIONS

	mm	in
Width	1252	49.3
Height	1025	40.4
Depth	797	31.4

**Concept 400-M**  
Perfect for mid-range anaerobic or  
microaerophilic workloads

210.3L working anaerobic volume

## EXTERNAL DIMENSIONS

	mm	in
Width	1252	49.3
Height	1025	40.4
Depth	797	31.4

**Concept 500**  
Perfect for mid-range workloads,  
with larger interlock

210.3L working anaerobic volume

## EXTERNAL DIMENSIONS

	mm	in
Width	1392	54.8
Height	1025	40.4
Depth	797	31.4

**Concept Dual Chamber1000**  
For large anaerobic workloads and larger batch  
sizes, or when two different atmospheres are  
needed. (Please ask about our dual chamber  
microaerophilic options)

Two independently controllable chambers,  
each 210.3L

## EXTERNAL DIMENSIONS

	mm	in
Width	2404	94.6
Height	1025	40.4
Depth	797	31.4
